DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

- (b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.
- 2. Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by U.S. Patent No. 5,119,108 to Hatakeyama.

Hatakeyama teaches a printer comprising a print module including two or more printing heads, 11-13, selected from the group including a thermal print head, a magnetic strip write head, and a smart card connector, and a controller, 14, coupled to the two or more printing heads. See column 3, lines 14-32 and Figure 2 in particular.

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. U.S. Patent No. 5,330,274 to Schimmelpfennig et al., U.S. Patent No. 5,452,959 to Oka, U.S. Patent No. 6,106,173 to Suzuki et al., JP-58118288 to Miyashita et al. and JP-61120776 to Nireki each teach a printer having obvious similarities to the claimed subject matter.
